HARD TIMES ARE HERE, BUT THE KING OF KINGS CARES ABOUT YOU. → I know, I know. The Market is not the same anymore. Companies left and right are either closing doors, overinvesting in A.I. projects that tank, or struggling to survive. It's a war. You may not be ready for it, but there's a warrior inside of you. The King of kings created that warrior. YOU. That's why you must not give up. You have to fight for true freedom and for having the ability to do what you want, spend time with whom you want, and enjoy the life given to you at its fullest. Just don't give up, my friend. Because there's hope. You just have to look around. Or look up. REMEMBER: The King of kings is watching your every move and helping you along the ride. Time to build up some mental toughness and get back to work. People need you.
