November 1, 2026

A QUICK WORD ABOUT THE "RANK" CARDS → I have to let other True Entrepreneurs, Business Experts, CEOs and Writers know that I'm linking back to Brave in the recently published Market Facts cards that deal with RANKINGs ["RANK" Card #1 | "RANK" Card #2 | "RANK" Card #3] but at the same time I'm using (borrowing) content from A.I. search results for one reason: Some pieces of content may be considered fair use because of widely established technologies in Modern Times. I hope I don't get any copyright lawsuits for those from all kinds of brands and people because those who know my story, know that I have been through MANY of them already. We are in times of pre-war from my viewpoint. We need all True Capitalists to UNITE. REMEMBER: There are just 40 Capitalist nations in the world! There is no surviving this without some serious assistance! We need to help each other out! That's it for now. Stay strong. Work hard. And smart! Thanks for reading!
