MARKET FACT #105

800

United States Military Bases exist abroad, in +70 countries as of 2020. While China, has only ONE. How much money that costs americans?

DATE: November 21, 2023

COMMENT: When countries go to war expenses rise up and that usually translates into TAXES. **Because America has been involving itself in too many wars, americans shouldn't expect taxes to go away and enjoy big tax reliefs.** And because this number of US Military Bases is so absurd, you can imagine how much it costs americans for its own government to push warfare as part of their agenda on a daily basis. [Russia, France and Britain COMBINED has a total of 30 military bases](#). Remember: being war-ready has a cost.
