MARKET FACT #203

25%

of CEOs are thinking about replacing human workers with A.I., a survey in the World Economic Forum in Davos, revealed.

DATE: January 17, 2024

COMMENT: As the market crashes into a never-seen before Global Financial Crisis, other strategic moves yet to be executed by CEOs will unfortunately make things worse, generating more inequality. A very important fact is that [nearly 40% of jobs globally could be affected by the rise of AI \(FUTURISM\)](#), but that's not all. According to other finds, [40% of workers will have to RESKILL in the next 3 YEARS due to A.I.](#), which means part of The Market will “stop” production in order to level-up skills in personnel. Two crises at the same time.
