MARKET FACT #230

1%

**of the RICHEST are on target to own
2/3 of ALL Wealth by 2030.**

DATE: January 26, 2024

COMMENT: I don't know if that's just me, but 2030 doesn't seem so far away anymore, right? Look at the date of the source article and you'll understand. Big moves are being made by people with money and power, and [some of the richest are just desperately asking around to experts how to protect their FOOD and WATER \(!\)](#). Here's more: "[Since 2008, the wealth of the richest 1% has been growing at an average of 6% a year](#) – much faster than the 3% growth in wealth of the remaining 99% of the world's population. [Should that continue, the top 1% would hold wealth equating to \\$305tn \(£216.5tn\) – up from \\$140tn today.](#) –

SOURCE: [The Guardian](#). I think this is something important to remember. What equals 6% of fortunes year over year? That's a lot of money. And these people are buying bunkers and food and water protection? Think about that.
