MARKET FACT #24

3000

was almost the number of imposed restrictions on Trade in 2022, which in 2019 was only around 1000

DATE: September 1, 2023

COMMENT: Policymakers have been hammering International Trade with violence. Brutal violence. They have been imposing trade barriers in recent years turning the Global Economy into a fragmented reality where every country finds itself in a position where they have to “struggle” to survive. What was once business as usual...is no more. Protectionism is spreading in a world where Globalization has been the rule. The normal flow of Technological goods & services is being disrupted, and with it, entire companies across countries. **Some countries are having its GDP reduced by 12% (long-term). Commodity Markets are suffering, leading also to FOOD and ENERGY insecurity.**
