MARKET FACT #247

3600

**is the number of stocks you can
pick in the U.S. stock market today.
In 1996 this number was 8000.**

DATE: February 16, 2024

COMMENT: Another factor: **"40% of the companies in the Russell 2000 don't make any money, which means they're on the market but are not profitable"**

– SOURCE: [Youtube](#). So if you're thinking that wealth creation is easy now more than ever, think again. This stat alone shows how worsen the global economy has gotten. **Remember: ZOMBIE companies exist.** A hard truth: [25% of the companies in The USA were zombie companies in 2020](#). More truth: [3 major companies are now zombie companies → Bed, Bath and Beyond, Ford and Uber \(!\)](#). Companies "dominating" markets may not mean that they're profitable. It also means that there's fewer investment opportunities around.
