the World. The USA is house to 735.**

DATE: February 19, 2024

COMMENT: When you stop to think about it, it's really small the number of billionaires in the world, don't you think?! You can see most of them in a list by Bloomberg → [The Billionaire Index](#). And you can also come to the conclusion that those in Tech are most likely to become billionaires. But here's something important if you want to become one: "**Time and focus help.....It took Warren Buffett three decades to become a billionaire. And four more to become a centi-billionaire. Luck helps — a lot.** Mark Cuban also recently said that becoming a billionaire is all about luck." – SOURCE: [Business Insider](#). PS: And about 30% of the 400 richest people in the USA got their billions through INHERITANCE. PPS: China lost some. [45 BILLIONAIRES left China in the years of 2022 and 2023 \(!\)](#).
