MARKET FACT #274

813

**is now the number of
BILLIONAIRES in the United States.
Of all of them, only 126 billionaires
went to College. Self-taught rules.**

DATE: August 2, 2024

COMMENT: A considerable increase from [the amount of 735 BILLIONAIRES in the USA, when the world's amount is 2640](#). Can this mean that some of the [billionaires that left China recently \(45 of them\)](#) are migrating to the US? We don't know yet. But the central point is only one: **College doesn't make you a billionaire. Pursuing your goals and dreams like Steve Jobs do.** This is more hard evidence for those who care about starting early in building something that will impact World Markets (and your pockets). All at the same time.
