MARKET FACT #275

1.5M

metric tons is the max amount of production capacity in 2024 of the Sustainable Aviation Fuel (SAF) industry. Just 0.5% of total jet fuel needs today.

DATE: August 13, 2024

COMMENT: The SAF industry is still in its infancy, according to McKinsey. However, the demand for sustainable aviation fuel could OUTPACE SUPPLY by 2030 without a significant increase in capacity. In a 6-year time window things can change a lot for those in the SAF industry. [The estimated global demand from mandated SAF is around 4.5 million Mt in 2030 - SOURCE: McKinsey.](#)

A MESSAGE FOR BRANDS

BUSINESSES ONLY: Are you reading too many cards or articles? Then [you probably need Professional Consulting Projects.](#) That will boost your Marketing/Business results in a short amount of time. [Prices start at €399 per hour.](#) Buy a Project. Save time. Grow your business now. The market does not wait.
