MARKET FACT #305

21

LITHIUM MINING operations globally exist (as of 2021) nowadays to provide the mineral to industries.

DATE: August 26, 2024

COMMENT: The number of mining operations to extract Lithium, is relatively low (globally), with only 21 mining operations (2021 data point). This amount seems to be just the beginning as industries that rely on Lithium need hundreds more mining operations to fill demand. Chile, Argentina and Bolivia are the top 3 countries to extract lithium.
