MARKET FACT #316

12K

**INDIVIDUALS and ORGANIZATIONS
are under financial sanctions by the
U.S. Treasury Department today.**

DATE: August 30, 2024

COMMENT: The other important point on this subject? SIMPLE: [Countries under some form of U.S. Sanctions account for nearly 20% of Global GDP \(!\)](#). That's not good for business. Some heavy sanctions were imposed since the Trump administration took place and the more sanctions the U.S. delivers on others (and consequently their countries), the higher the chances foreign countries will seek alternative currencies to hold as wealth, since their citizens / organizations are having their stored wealth blocked. Something to think about.
