MARKET FACT #353

10K

**LANDFILLS in The United States
have closed because full capacity
was reached. There are only 3K left.**

DATE: September 17, 2024

COMMENT: Food waste has turned into a problem for landfills and we are all running out of places to put them. Here's an interesting data point: "According to the USDA, in the United States alone, 30-40 percent of the food supply is wasted. Half of all produce is thrown away in the US because it is too 'ugly' to eat. This amounts to 60 million tons of fruit and vegetables. 'Ugly' fruit and vegetables make up a third of all wasted food." – SOURCE: EcoWatch. THAT'S A LOT of waste in terms of food, don't you think?
