HOMES in the United States will be powered by a new largest SOLAR project in the country (Washington D.C. state).

DATE: September 19, 2024

COMMENT: The rise of green energy is coming with full power, so here's another project that is worth highlighting if you're in the United States: "The U.S. Department of Energy announced plans last week to transform a contaminated former nuclear weapons production site into what could be the largest solar project in the country. The installation would stretch across up to 8,000 acres in south-central Washington state and boast up to 1 GIGAWATT of energy capacity" – [SOURCE: Canary Media](#). Powerful.
