MARKET FACT #361

€400

MILLION less in tax income is what the French government expects to receive because its people stopped smoking.

DATE: September 20, 2024

COMMENT: Funny how certain data points explain things we don't tend to look at, but it's true. Some markets may stop selling as much and will directly impact the pockets of the french government. Although it's true that there's less money in their annual revenue with this fact, smarter minds know that its WORKFORCE will become healthier, will likely spend less on medical bills, meds and will be constant on their work without having to get a leave due to health issues. –
