**OF BRAZIL is under water stress
(widespread drought). It's the worst
drought of the last 70 years.**

DATE: September 23, 2024

COMMENT: The whole water crisis is hitting countries left and right and those who actually care about bringing up solutions (honestly, without a crime) are few. This is a factor where WARS could be triggered, as water is the 1st natural resource mankind uses the most. And here's a final point: "More records will be broken," Cunha told Mongabay. 'The next round of rain is expected to be delayed, so you can expect more rain only in November, or even later'". –

[SOURCE: EcoWatch](#). And this is not mentioning old water distribution infrastructure, by the way. One of the main causes for the water crisis.
