MARKET FACT #399

1GW

**has enough energy to POWER
around 750,000 homes. This is
where renewable energy gives
humanity hope for a nicer future.**

DATE: November 17, 2024

COMMENT: The Global Economy rests in part assured that renewable energy is here to stay, giving us all (mankind) a new kind of economic progress. And because of recent progress made, the future does look bright. As informed above, [1GW is enough to power 750,000 homes](#) meaning that a [Red Sea dam of 50 GW could power 37 MILLION homes \(!\)](#). What else can be in the works like that Red Sea Dam (that never happened) but that can change our lives?

A MESSAGE FOR BRANDS

BUSINESSES ONLY: Are you reading too many cards or articles? Then [you probably need Professional Consulting Projects](#). That will boost your Marketing/Business results in a short amount of time.
