MARKET FACT #400

90%

**of all raw LITHIUM is produced by
Australia, Chile and China.**

DATE: November 18, 2024

COMMENT: The war over lithium independence is hot as never before and 3 countries are in the spotlight of lithium harvesting and production in order to serve countries including themselves. [Australia produces 49%, Chile produces 28% and China produces 13% of lithium](#). The European Union produces around 0.1% and has to import its lithium instead. Once that raw lithium is in the hands of the country, it needs to be treated. Another point: [Around 21 LITHIUM MINING operations exist today globally](#). Furthermore, [60% of The World's lithium reserves are located in the "lithium triangle", a region that includes Chile, Argentina and Bolivia](#). The Market is set.

A MESSAGE FOR BRANDS

BUSINESSES ONLY: Are you reading too many cards or articles? Then [you probably need Professional Consulting Projects.](#) That will boost your Marketing/Business results in a short amount of time. [Prices start at €399 per hour.](#) Buy a Project. Save time. Grow your business now. The market does not wait.
