MARKET FACT #405

52%

of ALL industrial ROBOTS installed worldwide were installed in China (2022). That's a rise from 14% from a decade earlier.

DATE: November 19, 2024

COMMENT: Something else that's important and eye-opening is the following: "According to the Information Technology and Innovation Foundation, Japan, Germany, and Switzerland, are the leading robot makers" – [SOURCE: CNA Insider](#). China is about to change that (it seems). Furthermore, according to CHINESE government data (which is not reliable), as of July 2024, China holds around 190,000 patents related to Robotics. Who knew?
