MARKET FACT #519

1

child (grown) in CHINA has to take now on the responsibility of providing for their aging parents and grandparents. Six aging people for every 1 young adult.

DATE: January 12, 2025

COMMENT: China is the 2nd largest economy in the world but they might not stay that way due to their aging population. Due to its one-child per couple policy that lasted many years to prevent overpopulation, the chinese people are now in a different dilemma: THE ONE CHILD who's now adult may have to provide for 6 aging people: parents and grandparents. – [SOURCE: Bloomberg Originals.](#)
