MARKET FACT #96

75%

**of the Market Share of BATTERIES
belongs to China, and 6 of the 10
largest battery manufacturers are in
China.**

DATE: November 20, 2023

COMMENT: The Market for batteries is under a communist nation, providing batteries (a critical component for smartphones, laptops and other products of Modern Days) to capitalist nations (?!?!). The world is backwards. **This is why this current Global Financial Crisis is a BLACK SWAN event.** We are leaving the control of our daily operations of our companies and our government agencies under a nation that proclaimed itself communist decades ago (!). What happens when China attacks our countries by cutting Trade all of the sudden?
